SUMMARY

Visual Designer transitioning into Product Design, with a strong foundation in visual systems, design direction, and client-facing work across digital products and brands. Currently building hands-on experience in UX, interaction design, Figma, and design in code through a live self-initiated product and the Google UX Design Professional Certificate. Seeking to grow within a product team while contributing established visual craft, systems thinking, and professional design experience.

SELECTED PRODUCT & SYSTEMS WORK

Perdana's Computer - Product Design & Design Engineering | Independent Project | Jun 2026-Present

- Designed and shipped a **live interactive portfolio** for recruiters and design teams, using a Windows 95-inspired desktop experience to differentiate the portfolio and encourage exploration.
- Mapped **user flows and information architecture**, created early **wireframes in Figma**, then refined interactions directly in code through an AI-assisted design-to-code workflow.
- **Tested early versions with 3 users** and iterated from feedback, simplifying project navigation into two clear entry points: case study and final product/result.
- Built responsive onboarding, desktop/folder navigation, AI chat, project discovery, and contact flows with **React, HTML/CSS/JavaScript, Git/GitHub, and Vercel**.

HoloHealth - Scalable Iconography System | Design Lead | Apr 2025-Jun 2026

- Led visual direction and production for **2,500+** veterinary, medical, health, and product-related icons/assets; established master designs, directed another designer, reviewed quality, and managed founder communication.

Shipfaster UI - Iconography Design System | Iconography Designer | Jun 2024-Aug 2024

- Developed a scalable icon library for a Figma UI kit, building **reusable components and variants** across styles and sizes with consistent grids and implementation-ready structures.

PROFESSIONAL EXPERIENCE

Product Design & Design Engineering - Independent Development | Jul 2026-Present

- Completed the Google UX Design Professional Certificate while developing foundations in UX principles, user research, user flows, wireframing, prototyping, and usability.
- Expanding into Figma, responsive interfaces, HTML/CSS/JavaScript, React, Git/GitHub, and AI-assisted design-to-code through Perdana's Computer.

Conania - Visual Designer & Design Lead | Mar 2016-Jul 2026 | Indonesia

- Delivered **3,000+** visual design projects for startups, founders, and SME clients worldwide, earning **2,000+ five-star ratings**.
- Built **scalable visual and icon systems** for digital products, websites, apps, and physical products; worked directly with founders to clarify requirements and translate complex ideas into clear design solutions.
- Led design direction and coordinated freelance designers and production partners, managing feedback, quality, and delivery across concurrent projects.

Sinidikara - Social Media Designer | Dec 2019-Jan 2022 | Jakarta, Indonesia

- Contributed to growing Mayora's community from **40K to 100K (+150%)** through audience-informed content strategy, visual design, and iterative experiments informed by behavior and performance data.

Additional Experience: PT Bank Mandiri - Environmental Graphic Designer (2019) | Kementerian Sekretariat Negara - Design Curator (2019) | Mehibi Studio - Graphic Design Intern (2016)

EDUCATION & CERTIFICATION

Google UX Design Professional Certificate - Google / Coursera | Aug 2026

Bachelor of Design, Visual Communication Design - Institut Kesenian Jakarta | 2017-2021 | GPA 3.70/4.00

SKILLS

Product & UX: User Flows, Information Architecture, Wireframing, Interactive Prototyping, UX/UI Design, Interaction Design, Responsive Design, UX Principles

Systems & Visual: Design Systems, UI Components, Component Variants, Iconography Systems, Visual Systems, Typography, Layout & Grid

Tools & Technical: Figma, Adobe Illustrator, Adobe Photoshop, HTML, CSS, JavaScript, React, Git, GitHub, **Vercel**, AI-Assisted Design & Development
